COUNCIL OF EUROPE
CONSEIL DE L'EUROPE

Doc. 609
09 January 1957

Broadcasting station Europe No. 1

Motion for a recommendation
tabled by Mr Edouard CORNIGLION-MOLINIER and other members of the Assembly

The Assembly,

Noting that the settlement of the Saar question has placed the broadcasting station Europe No. 1 located at Sarrelouis in an anomalous position;

Noting that the French Government has certain claims on this station and could, with the consent of Parliament, offer to purchase it;

Noting, further, that a proposal to this effect made in t h e French National Assembly has been rejected because the intention is to demolish the station;

Considering that the equipment of the Europe No. 1 station, if transferred to a suitable place, such as Strasbourg, could provide the European institutions with a valuable means of disseminating information,

Hopes that the Council of Europe will be able to purchase this equipment and make it available to its institutions;

Recommends that the Committee of Ministers conclude an agreement with the French Government for the operation of this broadcasting station by the Council of Europe.

Signed (see overleaf)

Signed:

CORNIGLION-MOLINIER Edouard, France
