

Doc. 744

24 October 1957

Reply to the Fifth Report on the activities of the Intergovernmental Committee for European Migration

Motion for a recommendation

tabled by the Social, Health and Family Affairs Committee

The Assembly,

Having examined the Fifth Report on the activities of the Intergovernmental Committee for European Migration;

Noting that certain West European countries continue to require international assistance to facilitate the migratory movements of their surplus elements of population and of refugees who have found asylum on their territory;

Finding that the activities of I. C. E. M. are expanding beyond the field of transport proper, to cover other aspects of overseas migration,

Recommends to the Committee of Ministers that it should :

1. invite all Member Governments to give generous support to the efforts of I. C. E. M. in these fields;
2. take all possible steps to further the close co-operation already established between I. C. E. M. and the Council of Europe—especially the Special Representative and the Resettlement Fund—and proceed to translate it into practical achievements.
