

Doc. 830

03 May 1958

Production of milk and other dairy products

Motion for a recommendation

tabled by Mr Albert RÖMER and other members of the Assembly

The Assembly,

Considering the importance of milk and other dairy products in agricultural production in Europe,

Recommends that the Committee of Ministers should take all possible steps to foster and protect such production in the interest of safeguarding the livelihood of the agricultural population and the health of the consumers.
