COUNCIL OF EUROPE
CONSEIL DE L'EUROPE

Doc. 851
22 September 1958

That the Council of Europe encourage European research in the field of agriculture

Motion for a recommendation
tabled by Mr René CHARPENTIER and other members of the Assembly

The Assembly,

Considering that since 1953 the Council of Europe has awarded annually a number of scholarships to encourage research in various sectors of activity corresponding to the aims set out in its Statute ;

Noting that only one scholarship has so far been awarded for work in the field of agriculture,

Recommends to the Committee of Ministers :

1. that the number of scholarships awarded annually by the Council of Europe be increased, so that each year several scholarships may be granted for work on agricultural problems;
2. that Council of Europe scholarships be made better known in agricultural circles throughout Europe by means of appropriate propaganda effort.

Signed (see overleaf)

Signed:

CHARPENTIER René, France
