

**Doc. 906**

16 October 1958

## **Voting procedure of the ministerial organ of the proposed European Economic Association**

### **Motion for a recommendation**

tabled by Mr Ronald RUSSELL and other members of the Assembly

The Assembly,

Considering that on the basis of one vote for each of the seventeen Members of O.E.E.C. it would be possible for five members representing a total population of approximately 206 million people to be outvoted by a two-thirds majority of twelve members representing only 77 million people,

Recommends that a voting formula be devised fixing the number of votes' held by each Member in proportion to the population and gross national income of each Member.
