

Doc. 72

18 August 1950

Establishment of a European Joint Purchasing board

Motion for a resolution

tabled by Mr Maurice EDELMAN and other members of the Assembly

That this Assembly,

taking into account the present need of the European nations to stockpile and pre-empt raw materials for the purpose of defence and construction;

and taking into account the price inflation which competitive bidding for these materials must cause ;

invites the Committee of Ministers to set up a European Joint Purchasing Board which will have as its object to make such purchases as are considered necessary in the collective interest.
