Committee of Ministers

1. The Committee of Ministers considers that it is not for it to take position on statements made by the public authorities of member states as long as these statements do not call into question the obligations and commitments which member States have undertaken when acceding to the Council of Europe.
2. From this perspective, the statement mentioned by the Honourable Parliamentarian does not call for any comments.

1. Adopted at the 1130th meeting of the Ministers' Deputies (11 January 2012)
