

Doc. 1009

19 June 1959

Action to be taken by the Council of Europe to give publicity on a European scale to road accident figures in member countries

Motion for a resolution

tabled by Mr Hendrik VOS and other members of the Assembly

1. The Assembly,
2. Having regard to the incessant increase in deaths and injuries due to road accidents in the member countries of the Council of Europe;
3. Believing that measures to combat this evil will be furthered if more effective publicity is given to such facts as the total figures of deaths and injuries, given as European totals,
4. Resolves to examine, in collaboration with the Secretary-General, by what means the Council of Europe could take action in this sense.

Signed (see overleaf)
