

Doc. 84

23 August 1950

Construction o a Tunnel under the English Channel

Motion for a resolution

tabled by Mr Gabriel BOLIFRAUD, Mr Maurice EDELMAN

The Consultative Assembly,

Considering that one of the declared aims of the Council of Europe is to bring about closer union among its members and to foster the economic development of their countries

Instructs its Committee on Economic Questions to study the present possibilities of building a Channel Tunnel together with the advantages accruing from such underwater means of communication.
