

Resolution 4 (1950)¹

Information of national parliamentary assemblies

Parliamentary Assembly

The Committee on General Affairs,

Considering that it is highly desirable, for the efficiency of the work undertaken by the Consultative Assembly and its Committees, that the members of national parliamentary assemblies should be kept regularly informed of the activities of the Council of Europe and should be able to associate themselves with such activities,

Requests that the Secretary-General arrange for a Report to be drawn up on the practical methods whereby such liaison could be assured, basing this Report on the observations made by members of the Committee,

Requests that the Assembly undertake a study of the proposals contained in the Secretary-General's Report at its next Session.

1. Adopted by the Committee on General Affairs 23rd June 1950, and ratified by the Assembly 18th August 1950, at the conclusion of the Debate on the Report of the Committee on General Affairs. See Doc. AS (2) 4 and Sitzings of 17th and 18th August 1950.
