The honouring of obligations and commitments by the Russian Federation

Amendment¹ No. 22

Mr Ilyas UMAKHANOV, Russian Federation, European Democrat Group

In the draft resolution, replace paragraph 15 with the following paragraph:

"The Assembly is especially concerned about the situation in the North Caucasus. The end of military actions, as well as the measures undertaken by the federal authorities aimed at restoring and modernising the infrastructure and rebuilding the towns, have considerably improved the living conditions of the population. At the same time, the continuing terrorist acts, killings of military personnel, civilians and clergy, the continuing human rights violations and an atmosphere of impunity, lead to an increase of violence and to a volatile situation in the region. Expressing its condemnation of the terrorist acts and solidarity with their victims, the Assembly at the same time notes the excessive use of force and abuses by law enforcement agents."
