

Doc. 14080
20 June 2016

Fighting the over-sexualisation of children

Amendment¹ No. 2

In the draft resolution, replace paragraph 4.4 with the following paragraph:

"adopt policies which develop sex and relationship education programmes in a school context, and provide support for educational staff responsible for giving such education, with the aim of informing children about the realities of the everyday pressure they face in the media, at school and in other social contexts, and of protecting them against any unwanted sexual attention."
