

Doc. 14335
20 June 2017

Migration as an opportunity for European development

Amendment¹ No. 3

tabled by the Committee on Social Affairs, Health and Sustainable Development

In the draft resolution, paragraph 9.1.2, after the words "seasonal and domestic workers", insert the following words:

", as well as providing opportunities and integration measures that specifically target low-skilled and less educated migrants".

Explanatory note

Low-skilled and less educated migrants could also be very beneficial for Europe, if only they received the right support in the form of opportunities and integration measures.
