

Doc. 14521
23 April 2018

Climate change and implementation of the Paris Agreement

Amendment¹ No. 9

In the draft resolution, after paragraph 6.9, insert the following paragraph:

"foster the adoption of ambitious measures on green public procurement, reinforcing the role of the public sector in creating a market pull for low-carbon, innovative solutions and reinforcing the role of Europe's industry in providing those solutions;"

Explanatory note

Green public procurement can be a venue to introduce more innovative, more sustainable products into the market, thus fostering European innovation while cementing the transition.
