## State of emergency: proportionality issues concerning derogations under Article 15 of the European Convention on Human Rights

### Amendment<sup>1</sup> No. 10

In the draft resolution, paragraph 16.5, after the word "remedy", insert the following words:

"for such a large number of cases".

#### *Explanatory note*

Remedies regarding the impact of emergency measures have been implemented as soon as possible. The commitment of the government in this regard has been strong, however the scope of threat and complexity of the necessary measures, which did not allowed to take expeditious steps, should be taken into consideration.
