State of emergency: proportionality issues concerning derogations under Article 15 of the European Convention on Human Rights

Amendment¹ No. 7

In the draft resolution, at the end of paragraph 15, insert the following sentence:

"The Assembly also firmly condemns terrorist attacks, which target the very values of democracy and freedom, recalling that since the terrorist coup attempt, Turkey has repeatedly suffered further such atrocities."

Explanatory note

It would be convenient to add the condemnation of the terrorist attacks in Turkey to the draft resolution, since the terrorist attacks in France are strongly condemned in the draft resolution.
