B. Draft Recommendation

" The Assembly,

bearing in mind the rising cost of living and the consequential hardship both to wage and salary earners and to those, like pensioners, with fixed incomes;

mindful of the rising cost of the defence; programme and its heavy burden on the taxpayer;

recognising that these rising costs are, in great measure, due to the rising prices of overseas commodities;

and having due regard to the necessity of denying strategic raw materials to aggressor States :

Calls on the Committee of Ministers to concert action with the United States Government with a view to establishing a Joint Atlantic Resources and Purchasing Board which will have as its task:

- a. to bring down prices ,and stabilise the commodity markets by all appropriate measures,
- b. to ensure that allocations are made to its members for stockpiling and current use on the basis of fair shares and common strategy. "
