

Doc. 15537
22 June 2022

The control of online communication: a threat to media pluralism, freedom of information and human dignity

Amendment¹ No. 2

In the draft resolution, after paragraph 1, insert the following paragraph:

"In contrast, a virtuous model of interrelation between users and intermediaries was constituted by Wikileaks. Therefore, it is unacceptable that States tend to punish this horizontal and democratic information communication model instead of encouraging it with a view to gradually implementing a comprehensive legal declassification mechanism."
