Further escalation in the Russian Federation's aggression against Ukraine

Amendment¹ No. 2

In the draft resolution, after paragraph 10, insert the following paragraph:

"The Black Sea blockade was over after the Black Sea Grain Initiative brokered by Türkiye and UN. This deal has been a contribution to the solution of the global grain and food crisis and its continuation is important for the sustainability of global food security. The Assembly, therefore, invites member States to continue providing political support for the efficient implementation and prolongation of this process".

Explanatory note

The grain corridor will assist Ukraine in exporting its grain stocks and foodstuff, and also the country's recovery, which is referred to in paragraph 10.
