

Doc. 15608
13 October 2022

Preventing vaccine discrimination

Amendment¹ No. 20

In the draft resolution, after paragraph 12.8, insert the following paragraph:

"Ensure that the design and implementation of national vaccination plans and rollouts secure an ethical and equitable distribution of vaccines and avoid any discrimination on the basis of age, health, gender, race, religion, legal or socio-economic status, ability to pay, location and any other factor. Priority access should be given to groups in vulnerable situations, including persons over 65 years old and those under 65 with underlying health conditions."
