Environmental impact of armed conflicts

Amendment¹ No. 2

In the draft resolution, paragraph 10.2.6, after the words "open-ended manner," insert the following words:
"including by means of spreading the official interpretation of applicable international environmental laws,"

Explanatory note

To ensure a more open-minded interpretation of the applicable law, states might explore the example used in the cyberspace domain. This step would also contribute to the implementation of paragraphs 10.1.3-10.1.4 as states rely on ILC work and shape a coherent and comprehensive reading of the existing legal rules.
