

Doc. 15674
24 January 2023

Environmental impact of armed conflicts

Amendment¹ No. 6

Mr Oleksii GONCHARENKO, Ukraine, European Conservatives Group and Democratic Alliance

In the draft recommendation, after paragraph 3.10, insert the following paragraph:

"elaborate upon the recommendations to the member States about the protection of critical infrastructure, the damage of which as a result of military activities or terrorist acts can have substantial environmental consequences (for instance nuclear power stations, dams, hydraulic facilities, amongst other things)."

Explanatory note

Russian military aggression against Ukraine and especially the occupation of Zaporizhyya nuclear power plant show great need for this recommendation.
