

Doc. 15726
26 April 2023

Youth and the media

Amendment¹ No. 1

tabled by the Committee on Social Affairs, Health and Sustainable Development

In the draft resolution, at the end of paragraph 15.11, add the following words:

" , provided that they receive specific training and are given time to analyse the situation".

Explanatory note

On the practical level, health-care professionals lack time to routinely scrutinize for cyberbullying. In addition, it is a very sensitive and touchy issue: confidence is a keyword for a good relation between health-care professionals and young patients. So, there is an essential preliminary requirement: health-care professionals should be specifically trained.
