

Doc. 15825
10 October 2023

Pegasus and similar spyware and secret state surveillance

Amendment¹ No. 1

In the draft recommendation, paragraph 1.1.4, before the word "supervision", add the following word:

"judicial"

Explanatory note

The question of the judicial supervision is a key point, as is the question of whether or not there should be a special judge who should authorise and be the focus point. The judge would also be a focus point for citizens' questions about their rights.
