Pegasus and similar spyware and secret state surveillance

Amendment¹ No. 6

In the draft resolution, at the beginning of paragraph 11.4.2, add the following words:

"after the end of all the judicial proceedings,"

Explanatory note

Spain is a rule of law member State of the Council of Europe; the alleged unlawful spyware is before the courts. Before everything we should wait to see what the different courts and judges decide. In the case of any illegal spying of course there should be a political investigation.
