## The theme of migration and asylum in the election campaign and the consequences on the welcoming and rights of migrants

### Amendment<sup>1</sup> No. 4

tabled by the Committee on Political Affairs and Democracy

*In the draft resolution, before paragraph 12, insert the following paragraph:*

"Acknowledging the role that social media can play in exposing users to diverse sources of information and opinions, especially during electoral campaigns, and in line with Resolution 2281 (2019) "Social media: social threads or threats to human rights?", the Assembly invites social media platforms and tech companies to strengthen their efforts to identify, monitor and remove online content that promotes hatred, violence, and discriminatory discourses, while safeguarding freedom of expression and avoiding undue censorship, and signalling them to the competent authorities when the conditions require it."
