Mainstreaming the human right to a safe, clean, healthy and sustainable environment with the Reykjavik process

Amendment¹ No. 6

Mr Norbert KLEINWÄCHTER, Germany, European Conservatives Group and Democratic Alliance

In the draft resolution, replace paragraph 11 with the following paragraph:

"In terms of governance, forced ecological transition is profoundly anti-democratic and endangers citizens' freedom of expression and right to vote. Ecological transition would destroy the foundation of the wealth of European nations and would lead to a dramatic de-industrialisation and descent into third-world poverty. Therefore, any measure to enforce ecological transition must engender a meaningful and fully-fledged citizen participation, in full respect for the wishes and democratic choices of citizens."
