[...]

Letter from Mr Radosław Sikorski, Minister of Foreign Affairs of the Republic of Poland Warsaw to Ms Despina Chatzivassiliou-Tsovilis, Secretary General of the Parliamentary Assembly of the Council of Europe, dated 25 July 2024

[...] Acting pursuant to Article 22 of the Convention for the Protection of Human Rights and Fundamental Freedoms, I am pleased to submit herewith a list of three candidates for the post of judge of the European Court of Human Rights in respect of Poland (in alphabetical order):

- Ms Anna Adamska-Gallant,
- Ms Małgorzata Wąsek-Wiaderek,
- Mr Adam Wiśniewski.

As requested per your letter dated 31 January 2023, please find attached the candidates' curricula vitae in both English and French, [...], as well as detailed information on the national procedure by which the candidates were selected [...].

I would also like to confirm that the Advisory Panel of Experts on Candidates for Election as Judge to the European Court of Human Rights was consulted on 7 June 2024, as envisaged by the Committee of Ministers' Resolution No. CM/Res(2010)26 of 10 November 2010.

The Ministry of Foreign Affairs of the Republic of Poland remains at your disposal should the Parliamentary Assembly have any questions concerning the above-mentioned candidates or the selection procedure applied. [...]

2. Information on the national selection procedure applied in Poland to designate three candidates for the post of Judge of the European Court of Human Rights

The procedure by which three candidates were selected was regulated by two new acts:

- Ordinance No. 8 of the Minister of Foreign Affairs of 13 March 2024 on the establishment of the Committee responsible for the selection of candidates on behalf of the Republic of Poland for the post of Judge at the European Court of Human Rights ("Ordinance");

and

- Rules of the selection of candidates on behalf of the Republic of Poland for the post of Judge at the European Court of Human Rights ("Rules").

The new regulations were passed in order to implement the highest Council of Europe standards related to the selection of candidates. In particular, the method of appointment of the Selection Committee was changed to involve bodies independent from the executive and to define in advance the expected profiles of the members appointed by the respective bodies.

The standards of fairness and transparency were increased throughout the whole selection procedure and the professional examination of the applicants' linguistic competences was introduced as an obligatory part of the process. Special emphasis was put on an in-depth evaluation of the applicants' merits, including notably their compliance with the Convention's Article 21 requirements. A possibility was maintained for non-governmental organisations and legal professions to appoint observers of interviews with applicants. A public meeting with the candidates in the Senate was held before the submission of the final list to the Parliamentary Assembly.

1. The curriculum vitae are presented and published as submitted by the Government of Poland.

The new regulations were consulted with the Polish Ombudsman, legal professions and NGOs, both in the written process and at a meeting on 5 March 2024, as a result of which some changes were introduced.

2.1. The Selection Committee

The following persons were appointed by the Minister of Foreign Affairs to sit as members of the Selection Committee:

1. Dr Henryka Mościcka-Dendys, Undersecretary of State for Legal Affairs at the Ministry of Foreign Affairs – Chairperson (ex officio);
2. Dr hab. Marcin Wiącek, Professor of the University of Warsaw, Commissioner for Human Rights (Ombudsman);
3. Dr Hanna Machińska, Deputy Ombudsman in 2017–2022 – designated by the Minister of Justice;
4. Prof. Piotr Hofmański, judge of the Supreme Court in 1996–2015, judge of the International Criminal Court in 2015–2024 – designated by the Minister of Foreign Affairs²;
5. Prof. Andrzej Wróbel, retired judge of the Supreme Court, judge of the Constitutional Tribunal in 2011–2017 – designated by the Minister of Foreign Affairs;
6. Prof. Marek Safjan, retired judge of the Constitutional Tribunal, judge of the Court of Justice of the European Union in 2009–2024 – designated by the Minister for the European Union;
7. Dr hab. Celina Nowak, Professor and Director of the Institute of Law Studies of the Polish Academy of Sciences – designated by the President of the Polish Academy of Sciences;
8. Att. Magdalena Witkowska, Dean of the Council of the Regional Chamber of Attorneys-at-Law in Gdańsk – designated by the President of the National Bar Council of Attorneys-at-Law;
9. Adv. Małgorzata Mączka-Pacholak, Vice-Chairperson of the Human Rights Commission at the Polish Bar Council – designated by the President of the Polish Bar Council.

Director of the Legal and Treaty Department of the Ministry of Foreign Affairs and the Government Agent and Co-Agents before the Court acted as the Committee's secretaries without the right to vote.

The new Ordinance strictly defines the expected profile of the relevant bodies' appointees to the Selection Committee³ so as to ensure that they possess the relevant and diversified qualifications and experience and to ensure balanced composition, independence and high standing.

As a result, the new Selection Committee comprised high-level experts of recognised competence in human rights, representing all relevant professional backgrounds, including former judges of international and Polish supreme courts, the incumbent ombudsman and a former deputy ombudsman, professors specialised in human rights, as well as representatives of legal professions active in the defence of human rights.

2.2. Vacancy announcement

On 19 March 2024, the Minister of Foreign Affairs published an announcement (specifying the formal and substantive requirements to be met by the candidates) in three daily newspapers of a nationwide coverage, including *Gazeta Wyborcza*, a journal with the highest circulation of all papers considered, *Dziennik Gazeta Prawna* (a daily paper with a focus on legal matters) and *Rzeczpospolita* (a newspaper with a law supplement), the latter two being the leading daily newspapers for lawyers in Poland. A six-week deadline was fixed for submitting applications (expiring on 30 April 2024).

2. Participated in the first meeting of the Selection Committee.

3. The Ministers (of Foreign Affairs, of Justice and for the European Union) were only authorised to appoint persons who had been members of international courts and tribunals or held the highest judicial office in Poland or the position of ombudsman or ombudsman for children or their deputies. The President of the Polish Academy of Sciences could only appoint representatives of the academia with recognised competence in the field of human rights, international law or constitutional law. Presidents of the National Bar Council of Attorneys-at-Law and the Polish Bar Council could only appoint persons with recognised experience in acting for the protection of human rights, cooperating with non-governmental organisations active in the field of human rights protection or conducting proceedings before international human rights protection bodies.

The announcement was also published thrice on the MFA's main website. At the same time, the Foreign Minister sent letters to 130 institutions asking them to disseminate the announcement further. In addition to the relevant governmental authorities and the Chancelleries of the President, the Sejm and the Senate of the Republic of Poland, the request was addressed to three Ombudsmen functioning in Poland (i.e. the Commissioner for Human Rights, the Ombudsman for Children, and the Commissioner for Patients' Rights), the Supreme Court, the Supreme Administrative Court, all courts of appeal and all voivodeship administrative courts, the presidents of the relevant professional bodies of legal practitioners: the Polish Bar Council, National Bar Council of Attorneys-at-Law and the National Council of Court Bailiffs, the chairpersons of the human rights commissions of advocates and attorneys-at-law, deans of the faculties of law of 22 universities or other higher schools throughout the country, the Polish Academy of Sciences, and 16 non-governmental organisations (those that cooperate on a permanent basis with the Inter-Ministerial Committee for Matters Concerning the European Court of Human Rights and those that had appointed observers in the previous selection procedures).

2.3. Applicants

In total, 27 persons submitted their candidatures before the expiry of the time-limit; however, one of them withdrew his application before the first meeting of the Selection Committee.

Prior to the first examination of the applications, the members of the Selection Committee were required to declare any potential conflict of interests between them and any of the applicants.

Eight applicants were requested by the Selection Committee to remove formal shortcomings of their applications. There was no shortlisting and all 26 applicants were invited for interviews with English and French language experts and with the Selection Committee.

2.4. Interviews with English and French language experts

For the first time, interviews with English and French language experts were envisaged in the selection procedure in order to confirm the applicants' competences in both Council of Europe official languages. According to the Rules, the candidates should be proficient in at least one official language of the Council of Europe and should possess at least a passive knowledge of the other. Interviews were conducted by independent English and French language experts selected for this purpose by the Diplomatic Academy from among persons possessing a master's degree in foreign philology or applied linguistics. Bearing in mind that the interviews focused on the Convention system terminology, they were obligatory for all applicants notwithstanding the submission of language certificates.

Interviews were conducted to confirm either proficient or passive knowledge of both official languages of the CoE, according to the applicants' declared choice.

During the interviews aimed at confirming the proficiency in the Council of Europe official language, the applicants were given the following tasks:

- to translate into Polish a legal summary of the Court's judgment;
- to comment in the Council of Europe official language on the contents of a 2-minute excerpt from a hearing before the Court;
- to answer in the Council of Europe official language one general question related to the Convention system.

In contrast, the following tasks were envisaged for the interviews aimed at confirming passive knowledge of the Council of Europe official language:

- to translate into Polish a legal summary of the Court's judgment;
- to comment in Polish on the contents of a 2-minute excerpt from a movie about the Court (taken from the Court's website).

All applicants were given the same amount of time for an interview (no more than 30 minutes). Written opinions on the applicants with conclusions on whether they possess a proficient or at least passive knowledge of the language evaluated were submitted by the language experts to the Selection Committee before its second meeting.

2.5. Evaluation of the applicants by the Selection Committee

The new Rules have significantly changed the process of evaluation of the candidatures received.

Firstly, the Rules codify both formal and substantive requirements that should be satisfied by the applicants. As far as the latter are concerned, the Rules provide that a person applying for the post of Judge should meet the following substantive requirements:

- be a person of high moral character;
- be qualified to hold high judicial office or be a jurisconsult of recognised competence;
- have good knowledge of issues related to the protection of human rights;
- be distinguished by a high level of legal knowledge;
- have extensive experience related to the practice of law, or extensive academic experience and achievements;
- have proficiency in one of the official languages of the Council of Europe and at least passive knowledge of the other.

Secondly, the Rules require that the Selection Committee evaluates the applicants, taking into account the requirements indicated in Article 21 of the Convention. For this purpose, the Committee should consider in particular whether the applicants have:

- knowledge of issues related to the protection of human rights and the Council of Europe system;
- legal knowledge, especially in the areas of Polish law covered by applications lodged to the Court and public international law;
- national or international experience related to the practice of applying the law or academic experience and achievements in areas relevant to the protection of human rights.

In addition, the Committee should also take into account the applicants’:

- level of knowledge of the official languages of the Council of Europe;
- motivation behind applying for the office of judge and commitment to human rights;
- guarantees of independence and the need to avoid the necessity for systematic or long-term appointment of ad hoc judges if a person is elected;
- communication skills, including clarity and precision of thought and expression;
- judgmental skills.

Thirdly, the Rules determine precise steps in the evaluation of each candidature by the Selection Committee:

- analysis of the curriculum vitae and other documents submitted by the applicants (including an obligatory motivation letter in which they are required to justify compliance with Article 21 and linguistic requirements) – all members of the Selection Committee were provided with the applicants’ files for in-depth examinations;
- analysis of the opinions submitted by language experts;
- interview with all persons whose candidatures comply with formal requirements and who have attended interviews with language experts (for more information see the “Interviews with the Selection Committee” section below);
- discussion after each interview to summarize the applicants’ qualifications and assess their compliance with Article 21 and the level of compliance with linguistic requirements.

Fourthly, the Rules clearly provide that the lists of three candidates and three reserve candidates are selected by the Committee only from among persons having been considered as complying with Article 21 requirements. Thus, the final decision-making process includes only persons complying with these requirements and in its final decision the Committee’s task is to choose those persons who comply with Article 21 and all other requirements, including linguistic, to the highest extent. The Rules also require that the lists of candidates and reserve candidates should include at least one representative of each sex (unless in view of exceptional circumstances it would not be possible). Only members of the Committee who were present

during all interviews with applicants shall participate in determining the lists. The final lists are decided either by consensus or by voting in which the President of the Selection Committee has a casting vote (in the event of a tie).

Finally, the Rules explicitly provide that in assessing the applicant's compliance with Article 21 and linguistic requirements, members of the Selection Committee should take into account the standards set by the Committee of Ministers of the Council of Europe, the Parliamentary Assembly of the Council of Europe and the Advisory Panel of Experts on Candidates for Election as Judge to the European Court of Human Rights.

The Ministry of Foreign Affairs took additional effort to make the members of the Selection Committee aware of all standards and criteria applied by the Advisory Panel and the Parliamentary Assembly in their assessment of candidates for the post of judge. Notably, "A short guide on the Panel's role and the minimum qualifications required of a candidate" as well as the Memorandum prepared by the Secretary General of the PACE on the "Procedure for the election of judges to the European Court of Human Rights" were both translated into Polish and made available to the members. Their attention was drawn to two checklists applied by the PACE members (as annexed to the aforementioned memorandum). A similar checklist, comprising the criteria stemming from the Convention and the Rules and based on the CM Guidelines and the PACE checklists, was prepared to be used as a subsidiary assessment tool for members of the Selection Committee in their evaluations of the applicants.

2.6. Interviews with the Selection Committee

The new Rules codified the existing practice related to the conduct of interviews with the applicants, securing the transparency of this process and equal treatment of all persons.

All interviews were held according to the same rules fixed by the Selection Committee at the first meeting. Those rules were announced to all applicants in advance and were published on-line on the MFA's website. The interviews were conducted in principle in alphabetical order (with some exceptions made upon justified motions of the applicants) and the time afforded to each person was identical (30 minutes). At the beginning, all applicants were given an opportunity to present their candidatures and justify compliance with Article 21 requirements. They were also asked to share their vision of the role of judge and that of the Convention and the Court. Subsequently, all persons received the same set of three questions. All questions were proposed by the members of the Selection Committee in advance of the meeting and they decided on the final list of questions shortly before the start of the interviews. The questions were problem-based, of a wide scope, requiring the applicants to present their own assessment based on their knowledge.

All interviews were observed by observers appointed by legal professions and non-governmental organisations active in the field of human rights (see the "Transparency" section below for more information).

2.7. Selection of three candidates

Following each interview, the Selection Committee summarised the candidature and decided whether it complied or not with Article 21 of the Convention and with linguistic requirements, respectively.

Then, from a group of persons complying with Article 21, the Committee decided by consensus (after an indicative vote) to choose a list of three candidates who fulfil to the highest extent all requirements laid down in Article 21 of the Convention and in the Rules.

2.8. Public hearing in the Senate

In order to ensure the transparency of the selection process, to allow members of the Polish Parliament to acquaint themselves with the persons to be proposed as candidates to the Council of Europe, and to increase the role of the civil society in the selection process, a public and open hearing of the three candidates was organised in the Senate prior to the submission of the final list to the Parliamentary Assembly. Senators and invited guests had the opportunity to ask questions and listen to the responses of the three candidates. Among the participants were observers of the selection process appointed by NGOs and legal professions, numerous other representatives of the civil society, senators, deputies from the Sejm Committee on Justice and Human Rights as well as members of the Polish delegation to the Parliamentary Assembly of the Council of Europe, alongside representatives of the Polish Bar Council, the National Bar Council of Attorneys-at-Law and the Supreme Administrative Court. The meeting constituted an opportunity for the discussion on the most important challenges ahead of the Convention system.

2.9. Transparency

Throughout the whole selection process, special care was taken to ensure its transparency. Not only was the announcement widely disseminated, but the MFA also launched a dedicated website (<https://www.gov.pl/web/dyplomacja/wybor-sedziego-etpc>) where it regularly published news on the respective stages of the selection process, including information on persons appointed to sit as members of the Selection Committee, detailed information on both meetings of the Selection Committee, the conduct of interviews with language experts, the rules of conducting interviews with applicants by the Selection Committee, and – after the respective interviews – the questions posed to the applicants. All relevant domestic legal regulations and documents of the Council of Europe could also be found on that website, including the aforementioned memorandum of the PACE and the Panel's short guide in Polish⁴. All necessary documents and forms for the applicants were also made available in one place to facilitate applying. In addition, the MFA replied to many individual requests for information on the selection process.

What needs to be particularly emphasised is the fact that legal professions and all non-governmental organisations whose statutory activity includes actions in the sphere of promotion and protection of human rights and freedoms and civil liberties were entitled to appoint (by 30 April 2024) one observer each to the interviews with the applicants. The following NGOs availed themselves of the possibility to appoint observers:

- Amnesty International Association (Stowarzyszenie Amnesty International)
- Association for Legal Intervention (Stowarzyszenie Interwencji Prawnej)
- “Better Human Rights” Foundation (Fundacja Lepsze Prawa Człowieka)
- Citizens Network Watchdog Poland (Sieć Obywatelska Watchdog Polska)
- Foundation for Women and Family Planning (Fundacja na rzecz Kobiet i Planowania Rodziny)
- Free Courts Foundation (Fundacja Wolne Sądy)
- Helsinki Foundation for Human Rights (Helsińska Fundacja Praw Człowieka)
- “Indicium” Foundation (Fundacja Indicium)
- Ordo Iuris Institute for Legal Culture (Instytut na rzecz Kultury Prawnej Ordo Iuris)
- Professor Zbigniew Hołda Association (Stowarzyszenie im. prof. Zbigniewa Hołdy)

and so did the following organisations representing legal professions:

- Regional Bar Council in Warsaw (Okręgowa Rada Adwokacka w Warszawie).
- Regional Bar Council of Attorneys-at-Law in Gdańsk (Okręgowa Izba Radców Prawnych w Gdańsku)

All 12 observers were invited to attend the applicants' interviews with the Selection Committee. In practice, nine observers on average followed the interviews each day.

Under the Polish legislation there is no legal provision limiting the right to respect for private life of persons applying for the post of ECtHR judge and envisaging the publication of their personal data. Nevertheless, the applying persons were asked to state if they agreed to the publication of their candidature by filling in the relevant form prepared by the MFA. In consequence, 16 applicants (out of 26 who participated in the interviews) consented and their data were revealed by the MFA on its website. Obviously, the observers had full access to the information on the names of the applicants during the interviews. The observers signed a declaration that they would keep the applicants' personal data confidential and would not disclose the questions posed to the applicants until the completion of all interviews. They could, however, publish any information they considered relevant in order to comment on the fairness of the conduct of the interviews or on the organisation of the selection procedure. A group of observers submitted to the MFA their comments on the conduct of the selection process as part of the continuous dialogue between the ministry and the civil society aimed at ensuring the highest standards.

4. Other documents published on the MFA's website included the PACE Resolution 1646 (2009) on the nomination of candidates and election of judges to the European Court of Human Rights; the applicable extract from the Rules of the Parliamentary Assembly on Elections by the Parliamentary Assembly; CM Resolutions nos. CM/Res(2009)5 on the status and conditions of service of judges of the European Court of Human Rights and of the Commissioner for Human Rights and CM/Res(2010)26 on the establishment of an Advisory Panel of Experts on Candidates for Election as Judge to the European Court of Human Rights; Guidelines of the Committee of Ministers on the selection of candidates for the post of judge at the European Court of Human Rights as well as two relevant CDDH reports.

The level of transparency applied in the process is compatible with both the EU General Data Protection Regulation and the CM Guidelines, which do not contain any recommendation to publish personal data of all applying persons (cf. paras. V.2-3). The approach adopted in Poland is similar to that of many other Council of Europe member States. It is worth recalling here that serious concerns were expressed in two CDDH reports about the publication of personal data of all applying persons. Such a practice was described as a challenge that could possibly discourage potential applicants and was consequently avoided in the Polish regulations. Therefore, Poland opted for the approach that left it with the applicants to decide whether they wished to publish information on their candidatures.
