Overcoming age-based discrimination against older persons

Amendment¹ No. 2

In the draft resolution, after paragraph 13.1.1, insert the following paragraph:

"raise awareness about the fact that older persons are actors of intergenerational solidarity, and the main actors of "generativity", as they are the first to be directly concerned by the well being of the next generation, but they are also actors and subjects of "social generativity", as their actions are motivated by a sense of responsibility for the community;"
