

Doc. 16311
27 January 2026

Supporting the commitment to a comprehensive, just and lasting peace for Ukraine and the security of the European continent

Amendment¹ No. 13

tabled by the Committee on Political Affairs and Democracy

In the draft resolution, replace paragraph 2 with the following paragraph:

"The Assembly deplores Russia's refusal to agree to an immediate ceasefire as a prerequisite for genuine negotiations, and the serious escalation of its war of aggression against Ukraine, through ever more war crimes and violations of human rights and international humanitarian law. Russia is intensifying its drone and missile attacks on civilian infrastructure, including massive strikes on Kyiv, Dnipro and Kharkiv, resulting in numerous civilian casualties. As a harsh winter sets in, Russia continues to target relentlessly the country's critical infrastructure and energy networks in an attempt to undermine the population's exceptional resilience. The Assembly condemns in particular Russia's brutal attacks with the Oreshnik ballistic missile, which also pose a dangerous threat to the security of the continent. The Assembly stresses that Russia will be held accountable for its full-scale war of aggression against Ukraine. Russia is also endangering the nuclear security of Ukraine and Europe, notably by occupying and militarising the Zaporizhzhia nuclear power plant."
