Towards a Euro-Atlantic strategy for the Arctic in support of the rules-based international order

Motion for a resolution

tabled by Mr Bertrand BOUYX and other members of the Assembly

This motion has not been discussed in the Assembly and commits only those who have signed it

The threats to Greenland require a coordinated Euro-Atlantic strategy. The Council of Europe has a role to play in defending the sovereignty of states, the rule of law and democracy in the face of Arctic geopolitical challenges. The Parliamentary Assembly must examine the options for an effective strategy, supported by the relevant multilateral organisations.
