Violence and hate speech against politicians: a threat to democracy

Amendment¹ No. 7

Ms Sophia CHIKIROU, France, Group of the Unified European Left

In the draft resolution, paragraph 21, after the second sentence, insert the following sentence:

"In particular, it calls on them not to trivialise, instrumentalise or relay xenophobic and racist discourse that fuels far-right violence."

Explanatory note

The current text condemns "inflammatory" rhetoric, which remains too abstract. This amendment explicitly targets the link between the normalisation of hateful discourse and the transition to far-right violent acts.
