

Doc. 16412
24 June 2026

Access of migrants and refugees to healthcare

Amendment¹ No. 4

tabled by the Committee on Social Affairs, Health and Sustainable Development

In the draft resolution, after paragraph 8.6, insert the following paragraph:

“collaborate with international health organisations to develop secure, interoperable and portable digital patient summaries for refugees and asylum seekers in transit, ensuring that essential medical history, immunisation records and allergy data travel with the patient, thereby reducing redundant testing and preventing treatment interruptions.”

1. 2026 - Third part-session
