

Doc. 908

16 October 1958

Protection of the population of areas stricken by natural disasters

Motion for a recommendation

tabled by Mr Lujó TONCIC-SORINJ and other members of the Assembly

The Assembly,

In view of the recent natural disasters which have occurred in certain areas of some member countries;

Noting with concern the frequency of such disasters,

Recommends that the Committee of Ministers:

1. organise a warning system to protect the inhabitants of areas stricken by such disasters;
2. prepare a relief plan for the protection of the civilian population against the dangers of radio-activity in peace-time.
