(Final version)

Further escalation in the Russian Federation's aggression against Ukraine

Contents	Page
A. Draft Resolution	2

A. Draft Resolution

1. Eight months have elapsed since the Russian Federation launched a large-scale invasion of Ukraine. This brutal and inhumane aggression is provoking immense suffering, destruction and displacement, to a level unseen in Europe since the Second World War. This aggression must be unequivocally condemned as a crime in itself, as a violation of international law and as a major threat to international peace and security.
2. In the past few weeks, the Russian Federation has taken political, military and rhetorical steps which indicate a further escalation of the aggression. Marred by blatant intimidation of voters and held on the front lines of an ongoing armed conflict, the so-called referendums held in the Ukrainian regions of Donetsk, Kherson, Luhansk and Zaporizhzhia between 23 and 27 September 2022 are a travesty, in contravention of international law and contrary to any substantive and procedural standards for holding referendums. They must be considered null and void and with no legal or political effects.
3. Similarly, the attempted annexation of these regions by the Russian Federation is an affront to international law. The Parliamentary Assembly strongly condemns this blatant attempt to incorporate territory belonging to another sovereign State through force and coercion and reiterates its firm support for the sovereignty, independence and territorial integrity of Ukraine within its internationally recognised borders. The Assembly recalls that the Russian Duma had voted in favour of the invasion and annexation of Crimea, and notes with great concern that it also validated these more recent illegal attempted annexations. This is further demonstration that the Russian Duma cannot be treated like an equal partner among free and fairly elected parliaments of democratic countries.
4. While continuing its illegal occupation and militarisation of the power plant in Zaporizhzhia, the leadership of the Russian Federation has increased threats of nuclear warfare. In addition to being abhorrent and reckless, such threats are in breach of international law and incompatible with the responsibilities of a nuclear power holding a permanent seat in the United Nations Security Council.

5. The humanitarian situation in Ukraine remains dire. Almost 5 800 civilians are estimated to have died and one third of Ukrainians have been forced from their homes since 24 February 2022. Prisoners of war held by the Russian Federation's armed forces or by affiliated armed groups face torture and ill-treatment, and in some cases are being tried and sentenced to death, in clear contravention of international humanitarian law. The Assembly is outraged by the discovery of mass graves in cities and towns liberated by the Ukrainian forces, and firmly condemns all war crimes.

6. The continued use of long-range artillery by the Russian military to hit towns and cities across Ukraine has caused massive destruction and death. On 10 October 2022, a barbaric set of missile attacks targeted several Ukrainian cities, hitting public squares, playgrounds and residential buildings. With these indiscriminate attacks, Russia aims to advance its terrorist policy to suppress the will of Ukrainians to resist and defend their country and provoke maximum harm to civilians. The role of the illegitimate Lukashenko regime in helping the Russian Federation's aggression against Ukraine must not be forgotten. The recent announcement that Belarusian troops would deploy alongside Russian ones is deeply concerning and must be widely condemned.
7. Meanwhile, the climate in the Russian Federation is one of increasing repression. The authorities have implemented a far-reaching crackdown on civil liberties based on intimidation and open persecution, with the goal to provoke a state of terror in the general public for political purposes. Democratic figures are being repressed or killed, the system of opposition parties has been destroyed, the judiciary is not independent and many media and civil society organisations, such as Memorial International, have been closed down. Despite the many draconian measures passed in recent years, anti-war demonstrations and protests have been breaking out across the country. Amongst the most prominent public figures being persecuted for voicing criticism against the war is Vladimir Kara-Murza, who has been detained since April 2022. On 10 October 2022, the Assembly was honoured to award Mr Kara-Murza with the 2022 Václav Havel Prize, affirming support for his courage and determination to create a peaceful, democratic Russia.

In the draft resolution, at the end of paragraph 5, add the following sentence:

In the draft resolution, at the end of paragraph 7, add the following sentences:

"The Assembly calls on the Russian authorities for the immediate release of Vladimir Kara-Murza. The Assembly also calls for a review of cases of other political prisoners opposed to Putin, in the Russian Federation and in other countries, and for their release (including Mikheil

Saakashvili, Ukrainian citizen and former president of Georgia)."

8. President Putin's announcement of a partial mobilisation on 21 September 2022 is yet another sign of escalation, which has created tensions in the country. Protests at draft centres have at times turned violent, and hundreds of thousands of Russian men have attempted to flee the country to avoid a potential callup. The apparent deliberate attempt by the Russian authorities to disproportionately focus their mobilisation campaign on ethnic minority groups, including the population of Dagestan and Crimean Tatars who are mobilised in the Ukrainian territories temporarily occupied by Russia, is of great concern to the Assembly. It is also unacceptable that detainees across Russia are being sent to fight in Ukraine.
9. The unleashing of a war of aggression by a permanent member of the United Nations Security Council poses a challenge to global governance. The Assembly deeply regrets that on 30 September 2022 the United Nations Security Council was not able to adopt a resolution condemning the recent referendums due to the Russian Federation's veto, notwithstanding no other negative votes. In this context, the Assembly notes the increasing support for a reform of the United Nations Security Council and welcomes a greater role for the United Nations General Assembly including in issues relating to maintaining international peace and security.
10. The Assembly reiterates its full support for Ukraine and emphasises the importance for the international community to work together for the country's recovery and long-term peaceful and prosperous future. At the same time, the Assembly calls for a comprehensive system to hold the Russian Federation and its leadership accountable for this aggression and the violations of international human rights and international humanitarian law committed in this context.
11. In the light of the above considerations, while reiterating its relevant resolutions and recommendations adopted since the beginning of the large-scale aggression, the Assembly calls on Council of Europe member States to:

"recognise Russian political parties that have previously voted for illegal decisions encroaching on the sovereignty and territorial integrity of Ukraine, and other countries, as groups and entities that facilitate terrorism".

12. Given the unprecedented gravity of the Russian Federation's aggression as a threat to international peace and security, the rules-based international order, international law and the most basic values which are the foundation of the Council of Europe, the Assembly appeals to the Heads of State and Government of Council of Europe member States to gather in the fourth Summit in the history of the Organisation and put the issue of accountability of the Russian Federation, as well as support to Ukraine, high on the agenda of the Summit.
13. Furthermore, while reiterating its previous recommendations addressed to the Russian Federation since the outbreak of its aggression against Ukraine, the Assembly calls on the Russian Federation to:
- 13.1. cease its aggression against Ukraine immediately and unconditionally;

15. In the light of the gravity of the international situation, the Assembly calls on international organisations to consider appropriate measures to avoid that the Russian regime uses staff of Russian nationality as a vehicle to support the Russian Federation's aggression against Ukraine, spread false information and Russian narratives about it and to influence these organisations' political decisions.
16. As regards its own work, the Assembly should continue to follow developments relating to the Russian Federation's aggression against Ukraine.
