29 January 2025

A closer co-operation between the Parliamentary Assembly of the Council of Europe and the United States Congress

Motion for a resolution

tabled by the Committee on Political Affairs and Democracy

This motion has not been discussed in the Assembly and commits only those who have signed it

In recognition of the shared commitment to democracy, the rule of law, and the protection of human rights, co-operation between the Parliamentary Assembly and the United States Congress should be enhanced. In a world marked by complex challenges to democratic values and human rights, close transatlantic collaboration is essential to strengthening these foundational principles.

The benefits of sustained dialogue and shared initiatives with the United States Congress to address emerging global challenges, including safeguarding electoral integrity, combating misinformation, advancing social justice, and supporting the rule of law, are undeniable. In this regard the establishment of regular exchanges and joint platforms, fostering a robust partnership between the Parliamentary Assembly and the United States Congress would be welcome.

The Assembly should explore avenues for joint projects, mutual legislative insights, and unified responses to violations of democratic norms and human rights abuses, with a view to fortifying a democratic front, upholding shared values, and contributing to a more secure, just, and equitable world.
